## MEMORANDUM

To: Mayor and City Council<br>From: Chris Pike, Finance Director<br>Date: August 8, 2016<br>Subject: YTD Financial Report for J une 30, 2016

Following are the financial highlights for through June 30, 2016. A few unexpected numbers are showing up in the revenues this month; some positive and others negative. Overall revenues are above budget led by financial institutions tax and alcohol beverage licenses. Motor vehicle taxes remain off last year's pace, and it appears this line item will fall short of budget by the end of the year. This is attributable to the new taxing structure (TAVT) as those in Dunwoody replace their vehicles faster than originally anticipated. This should be offset with other taxes such as real estate, which as discussed last month, increased more than the amount budgeted.

Regarding the TAVT, receipts are down for a few reasons. First, the law was recently changed to start giving MARTA some of the county TAVT dollars; which were previously given to the schools, cities and county only. Second, overall collections were down statewide. To compensate, the State chose to keep $59 \%$ of the amount collected instead of the $53 \%$ that was originally established.

Expenses are as expected. The budget overage in Information Technology, Public Works, and Community Development is due to expenses for administrative services. As noted in May, the Stormwater Fund budget overage is due to projects that were delayed at the end of 2015 and instead completed at the beginning of 2016. In the summer, a budget amendment will be presented to capture these as well as other adjustments that are needed for the current year.

As Finance Director, I have reviewed this report. I am not aware of any material untrue statements or material omission; nor do I consider anything misleading. The financial statements and related information fairly present the financial condition and the results in all material respects. Management is responsible for internal controls and periodically evaluates these internal controls. No deficiencies in internal controls were discovered.
