June 27, 2019 Honorable Denis Shortal, Mayor, Members of the City Council, and Citizens of Dunwoody, Georgia

Ladies and Gentlemen

State law and local ordinances require that every general-purpose local government publish a complete set of audited financial statements each fiscal year. This report is published to fulfill that requirement for the year ended December 31, 2018. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the City of Dunwoody, Georgia (the City).

This report has been prepared in accordance with State statutes set forth in an Act providing uniform standards for audits of municipalities and counties within the State of Georgia, approved March 28, 1968 (p. 464), and as amended by an Act approved April 21, 1968 (GA Laws 1997, p. 883). Warren Averett, LLC, have issued an unmodified (clean) opinion on the City of Dunwoody's financial statements for the year ended December 31, 2018. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Our History

Dunwoody is located in northern DeKalb County, west of Norcross and east of Sandy Springs; the City is bordered to the north by Dunwoody Club Drive and to the south by Interstate 285. Although not formally recognized as an incorporated city prior to 2008, the residents in this area have always identified themselves as living in "Dunwoody," with a unique history separate from unincorporated DeKalb County. Dunwoody residents have a strong history of community involvement going back for decades before incorporation.

The Dunwoody area was originally inhabited by a number of Cherokee tribes, all part of the Creek Indian Confederation. In 1822, a significant tract of land was obtained from the Creek Indians from which Georgia formed the counties: Monroe, Dooly, Houston, Fayette, and Henry. In 1823, the legislators took portions of Fayette and Henry to form DeKalb County, with Decatur being the County seat. In 1821, Elias Redfield was granted land lot #377, which would eventually become part of the estate of Stephen T. Spruill. This land also passed through the hands of C. A. Dunwoody, in 1862.

Charles Alexander Dunwoody (City of Dunwoody namesake, 1828-1905) was the son of John Dunwoody (originally spelled Dunwody). John Dunwoody was one of the founders of the mills in Roswell, Georgia. The Dunwoody family moved to Roswell in 1839 along with the family's shoe manufacturing business. In 1863, because of the ever-increasing need for mill products during the Civil War, a charter was secured by the State of Georgia to fund the building of a railroad. Both Charles Dunwoody and James King were members of the Roswell Guards and Roswell Battalion. (James King was the grandson of Roswell King, the namesake of Roswell, Georgia).

Following the Civil War and the destruction wrought on Atlanta and its surrounding area, the Dunwoody family returned to Roswell. Major Charles Dunwoody decided to build his family's new home near the present day intersection of Chamblee-Dunwoody Road and Spalding Drive. Railroad construction resumed and the new, 9.8-mile line opened for business on September 1, 1881, running between the Air-Line Railroad and the Chattahoochee River. The Roswell railroad tied into the Air-Line at Roswell Junction, which is now Chamblee. The railroad carried produce from Dunwoody and

Cheek-Spruill House, 2009

"Old Buck" Circ. 1918

fabric from the mills in Roswell. In 1903, the narrow gauge track was replaced with modern tracks, and the engine that ran them soon gained the nicknames "The Dinky" and "Old Buck." Dunwoody thrived as a crossroads community and continued to grow even after the railroad stopped running in 1921.

In 1971 the Spruill family, who owned a large amount of land in the area, sold a portion of their property for the construction of Perimeter Mall and surrounding commercial development. In this area today, you can still find a testament to the founding fathers and land owners visible in a cemetery preserved behind commercial buildings, the Stephen Martin/Spruill Cemetery at the corner of Hammond Drive and Ashford Dunwoody Road. Many other locations have been refurbished or marked as historical sites in order to preserve Dunwoody's historically rich legacy.

Dunwoody Present Day

Dunwoody entered into cityhood at midnight on December 1, 2008, following a community led movement to incorporate the City. Dunwoody was voted into cityhood by an overwhelming 81% majority. The City of Dunwoody is approximately 13.2 square miles with an estimated population of over 46,000 residents and an estimated daytime population of over 120,000.

Profile of the Government

The City of Dunwoody operates under a council-manager form of government. The Dunwoody City Council is comprised of a mayor and six council members elected by the people on a nonpartisan ballot for four-year terms.

Three members are elected by voters in each of the three separate districts they represent; the other three, including the mayor, are elected by city voters at large. The terms for council members from District Local 1, District Local 2 and District Local 3 expire in January 2022, while terms for the council members from District 1 At Large, District 2 At Large and District 3 At Large, including the mayor, expire in January 2020.

The Council serves as the legislative and policymaking body of the municipal government. They enact city ordinances and appropriate funds to conduct city business and provide policy direction to the administrative staff. The city manager works closely with the City Council to assist them in formulating policies and programs. Overseeing all city employees, the manager is responsible for the efficient ongoing operation of all city services as set forth by the City Council. Some services are still provided by DeKalb County. In conformity with generally accepted accounting principles, as set forth in Governmental Accounting Standards Board (GASB) Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 39, this report includes all funds of the primary government and any component units. For purposes of this report, the primary government includes all departments and agencies of the City which are not separate legal entities, including the Stormwater Department. The component units include those separate legal entities whose relationships with the primary government meet the criteria for inclusion defined in GASB Statement No. 61, specifically the Convention and Visitors Bureau of Dunwoody, and Urban Redevelopment Agency of the City of Dunwoody.

Local Economy

	2000	2008	2013	2020	2025	2030
Population	38,699	43,322	47,591	49,465	51,323	53,019
Households	16,018	18,322	19,479	21,791	22,609	23,356
Avg. Household Sz.	2.38	2.30	2.39	2.27	2.27	2.27

Dunwoody Population, Households, and Forecast: 2000-2030

Based on the 2010 US Census, in 2010 DeKalb County had a population of 691,893 people and stood as the third most populous county in the Atlanta Regional Commission (ARC) region. DeKalb County has come to represent nearly a sixth of metropolitan Atlanta's total population, a significant figure for a single county considering the region consists of ten counties. Moreover, the County represents 7.1% of the entire population of Georgia. Dunwoody represents 6.7% of the DeKalb population.

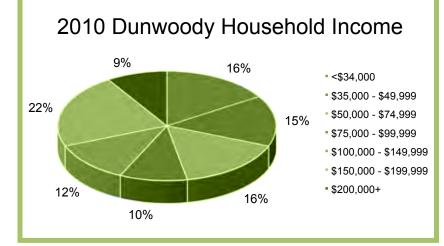

The City of Dunwoody contains approximately 40 percent of the Perimeter Community Improvement Districts (PCID). The PCIDs' goal is to work continuously to develop efficient transportation services, with an emphasis on access, mobility, diversification and modernization. The Perimeter Center/Perimeter Mall area is served by the Dunwoody train station on Metropolitan Atlanta Rapid Transit Authorities (MARTA) north line, while the other two stations in the area are both on the Fulton County side. Perimeter Mall and the adjacent Perimeter Place shopping complex are the two largest dedicated retail areas housed within city limits. Also included as a primary retail area and considered a central location of Dunwoody is the Dunwoody Village. Within the city limits, there are approximately 2,300 licensed businesses.

The City of Dunwoody's median household income in 2010 was \$74,297, and the per capita income was \$44,066. DeKalb County (2010), in contrast has a median income of \$46,812 and a per capita income of \$38,094, with Fulton County a bit higher at a median income of \$52,831 (2010) and a per capita income of \$32,562 (2010). This illustrates that the North Fulton/North DeKalb cities have higher incomes than the counties in which they are contained. Georgia numbers are substantially lower at \$46,430 and \$23,383, respectively.

Dunwoody hosts several of the nation's largest companies and virtually every major industry except agriculture within the Perimeter Mall and surrounding commercial properties. Perimeter Mall is the South's second largest shopping mall with 18 million visitors per year. The City's commercial properties comprise over 50% of the total tax digest by property value, ensuring a strong economic environment for the government.

National and Local Economy

Real GDP is projected to grow by 2.3 percent in 2019—down from 3.1 percent in 2018 as the effects of the 2017 tax act on the growth of business investment wane and federal purchases, as projected under current law, decline sharply in the fourth quarter of 2019. Nevertheless, output is projected to grow slightly faster than its maximum sustainable level this year, continuing to boost the demand for labor and to push down the unemployment

rate. Though the Federal Reserve's more dovish monetary policy stance has lowered interest rates after multiple rate increases in 2018, income growth still has not kept up with rising construction costs and home price appreciation in recent years. And though home affordability improved slightly, builders continue to struggle with rising construction and development costs stemming from excessive regulations, a lack of buildable lots and a shortage of construction workers. In regards to robust job growth, employers continue to add jobs with the year-end unemployment rates improving at the national, state, county and local levels:

	Current Year	Prior Year
United States	3.9%	4.1%
Georgia	3.7%	4.4%
DeKalb County	3.8%	4.5%
Dunwoody	3.8%	3.6%

Private sector wages and salaries increased 3.1 percent for the 12-month period ending in December 2018.

Several indicators show Dunwoody's local economy is strong. The City's property tax valuation increased significantly; driven by strong growth in commercial values as businesses expand into the PCIDs area. Revenues among the City's hotels were strong despite multiple major renovations. More increases are anticipated for 2019 due to new hotels coming online. Dunwoody's effective and efficient structure established during recession years in the economy has continued to be advantageous during the recovery period, illustrating the benefits of a diverse revenue stream and an efficiently managed service culture. Additionally, the City has avoided unmanageable health care costs and pension liabilities experienced by other municipalities by utilizing the Split Contract Service model that provides the City with highly trained staff for a fixed fee cost.

Long-term Financial Planning

Dunwoody is well-positioned for future economic success. Dunwoody saw new business licenses issued and continued to attract several corporate headquarters. The City's diverse revenue base provides a variety of additional revenues to the millage rate of only 2.74 mills from a variety of sources from groups of local businesses, residents and visitors to the area. The City continues to focus on keeping taxes low and making public investments in services and infrastructure. The City invested heavily in infrastructure and put in place several catalytic plans which will create a positive impact well into the future. The City's policy is to obtain and then maintain a minimum General Fund balance reserve equal to 33% of operating expenditures and a maximum of 67%. Excess fund balances over reserve requirements will be used in subsequent periods for pay-as-you-go capital projects and one-time non-recurring expenditures. As part of the financial strategic plan, the government is committed to a consistent millage rate for property taxes, to facilitate the provision of city services. The City's operating millage rate is 2.74 mills (and just 1.74 for homeowners).

Throughout the year, the Finance Department administered the approved financial policies within which the government's finances are maintained. These policies address fund balances, the use of one-time revenues, issuance of debt, purchasing and procurement, cash and investment management, and accounting practices. In totality, these policies formulate the core criteria for which internal evaluations occur. The Finance Department also engaged an independent auditor to evaluate the City's internal control structure and recommend improvements to our structure.

City Council Budget Priorities

The budget adopted by the Mayor and City Council's established priorities including:

- 1. Maintain a safe environment for all residents, businesses and visitors
- 2. Promote responsible and balanced redevelopment
- 3. Actively pursue comprehensive infrastructure improvements
- 4. Create an atmosphere in which businesses thrive.

The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund. Fiscal Year 2018 was the tenth full year of service. Major items implemented during this fiscal year include:

Priority 1 - Maintain a safe environment for all residents, businesses and visitors

- Implemented the PTO training program for recruit officers, which provides the department with a more effective training program to more effectively meet the contemporary needs of the City
- Implemented a new in-car camera system for patrol staff which allows for a more cost-effective and efficient method of documenting officer's action in the field
- Tested radio infrastructure which will allow the department to identify cost-effective methods of improving radio coverage within the City
- Attained State Re-certification via the Georgia Association of Chiefs of Police
- Participated in multi-jurisdictional operations targeting the sexual exploitation of females; rescuing juvenile and adult females during these operations
- We hosted two AED/CPR Certification classes for our community
- We conducted several Active Shooter training classes for the community
- Coordinated a successful Large Truck & Bus Enforcement Initiative on I-285 with multiple departments
- Constructed sidewalks on Womack Road, Dunwoody Club Drive, Central Parkway and Ashford Gables Drive
- Constructed a water quality basin at the Dunwoody Nature Center
- Coordinated multiple recycling events collecting 3798.25 gallons of paint and 28,743 gross pounds of electronic waste and 17,710 gross pounds of household hazardous wasted
- Removed over 1000 illegal signs posted in City rights-of-way
- Processed over 10,000 court citations

Priority 2 - Promote responsible and balanced redevelopment

- Revised tree ordinance to create a tree removal permit process and enforce tree removal within the stream buffer
- · Presented draft amendments to Planning Commission to revise the Dunwoody Village Overlay
- Managed the Peachtree Industrial Boulevard Small Area Study
- Updated Standard Informational Sign regulations
- · Comprehensive update to fence/wall code to minimize need for variance requests
- · Worked with Wal-Mart to install a cart containment system

- Performed over 4000 Residential and Commercial permit inspections
- · Collaborated with Code Enforcement to identify and cite work being performed without proper permitting, especially targeting "flippers"
- · Updated building code to remove roof inspection requirement for residential projects
- Held Retreats with the Development Authority and City Council to refocus the Redevelopment Strategies on our Commercial Character areas
- Completed design of the Brook Run Park Master Plan Phase I
- Participated in the Local Update of Census Addresses (LUCA) program to aid in accurate population counts within the City for the 2020 Census

Priority 3 - Actively pursue comprehensive infrastructure improvements

- Continued implementation of the 5-year capital paving plan completing 16 lane miles of paving resulting in over ½ of the city's roads being paved since incorporation and completing an update citywide pavement condition assessment
- Continued sidewalk improvements guided by the sidewalk improvement policy
- Constructed the Perimeter Connector Bridge of the Dunwoody Trailway
- Completed construction plans for Roberts Drive improvements at the new Austin Elementary School
- Completed the Perimeter Activity Center traffic signal communication project
- Joined the Waze Connected Citizens Program to explore the depth of integration that is possible with the City's GIS starting with a Waze Dashboard slated for launch in 2018

Priority 4 - Create an atmosphere in which businesses thrive

- Implemented an on-line automated inspection request system
- Rolled out informative "How to" online video to help potential business owners
- Built an open relationship with Perimeter Mall management staff to help maintain a current listing of businesses in the mall
- Promoted benefits and impacts of Hotel-Motel Tax initiative
- Promoted the Dine-In-Dunwoody program and coordinated a new Social Media campaign focused on the Dunwoody Restaurant industry
- Revamped the online Economic Development toolkit
- Held over 100 Business Retention and Expansion meetings with local Dunwoody Companies to create stronger relationships with our business community and engage them with our community partners
- Coordinated the Development Authority process with commercial developers in Dunwoody

- Coordinated the partnership between the City, Chamber and CVB to publish the Atlanta Business Chronicle's Dunwoody Market Report that included 12 articles focused on Dunwoody's economy, housing and lifestyle
- Worked with the Dunwoody and Sandy Springs Convention and Visitors Bureau to publish the "Central Perimeter Guide" highlighting the live, work, play assets of Dunwoody, Sandy Springs, and Brookhaven

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the year ended December 31, 2017. This program recognizes those governments that go beyond the minimum requirements of generally accepted accounting principles to prepare CAFRs that represent the spirit of transparency and full disclosure. To be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA for consideration.

In addition, the City also received the GFOA's Distinguished Budget Presentation Award for the 2018 budget document. This program recognizes those governments that prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting. To qualify for the Distinguished Budget Presentation Award, the City's budget document must be proficient as a policy document, financial plan, operations guide, and communications device. This award is valid for a period of one year only. We believe our current 2019 budget continues to conform to program requirements and have submitted it to the GFOA to determine its eligibility for another award.

The preparation of this report is possible because of the efficient and dedicated services of the entire staff of the Department of Finance and the cooperation of all City departments. I would like to express my appreciation to all who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor, City Council, and City Manager for the unfailing support for maintaining the highest standards of professionalism in the oversight of the City's finances.

Respectfully Submitted,

Aleksandar Dimov

AUDITORS LETTER

6 Concourse Parkway Suite 600 Atlanta, GA 30328-5351 770.396.1100 warrenaverett.com

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council City of Dunwoody, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Dunwoody, Georgia (the City), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Dunwoody, Georgia, as of December 31, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, General Fund – Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual (GAAP Basis), Grants Fund – Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual (GAAP Basis), HOST Fund – Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual (GAAP Basis), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basis financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 25, 2019, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Warren averett, LLC

Atlanta, Georgia June 27th, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of the City of Dunwoody, GA (the City) provides an introduction to the basic financial statements for the fiscal year ended December 31, 2018. Management prepared this discussion that should be read in conjunction with the basic financial statements, footnotes, and supplementary information found in this report. This information taken collectively is designed to provide readers with an understanding of the City's finances.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The governmental activities of the City include general government, judicial, public safety, public works, housing and development, culture and recreation and community development.

Government-wide financial statements. The statement of net position presents information on all of the City's assets, liabilities, and deferred inflows, with the difference between the three reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, judicial, public safety, public works, housing and development, culture and recreation and community development. The business-type activities of the City include the stormwater management fund.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate convention and visitors bureau for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 38 and 39 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into governmental funds, proprietary funds, or fiduciary funds.

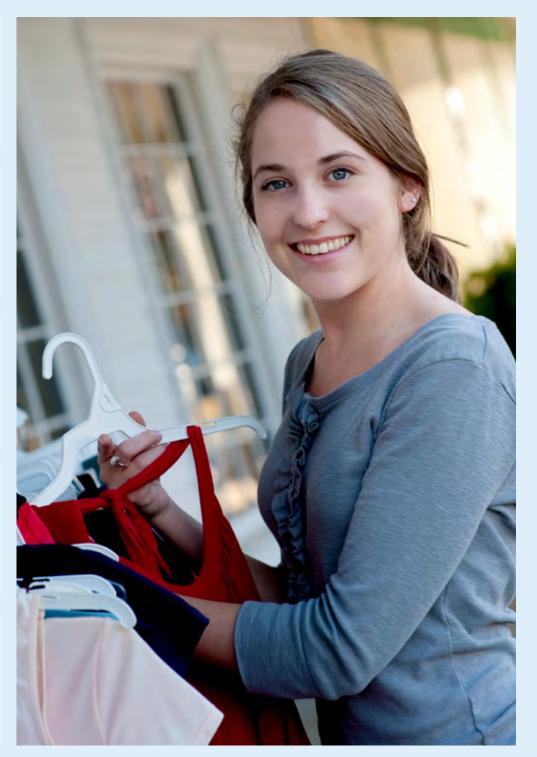

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the governmentwide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, grants, SPLOST, HOST and capital projects funds, which are considered to be major funds. Data for the other six governmental funds (motor vehicle excise tax fund, hotel/motel fund, debt service fund, confiscated assets fund, urban redevelopment agency fund and Emergency 911 telephone service) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for all its governmental funds.

The basic governmental fund financial statements can be found on pages 40 through 42 of this report.

Proprietary funds. The City maintains one proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its stormwater system. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The proprietary fund financial statements can be found on pages 43 through 45 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The City uses an Agency Fund for the collection and remittance of cash appearance bond related activity for municipal court. The accounting of fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statement can be found on page 46 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 47 through 65 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as the budgetary comparison schedules for the general, grants, HOST, and SPLOST fund as presented on a generally accepted accounting principles basis in this section. These schedules are intended to demonstrate the City's compliance with the legally adopted and amended budgets. Required supplementary information can be found on pages 68 and 70 of this report.

The individual fund statements, referred to earlier, are presented immediately following the required supplementary information. Individual fund statements can be found on pages 72 through 79 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

CITY OF DUNWOODY'S NET POSITION

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$142,751,443.

The largest portion of the City's net position, \$99,323,857, reflects its investment in capital assets (e.g., buildings, machinery and equipment, roadways, sidewalks, culverts, equipment and signals); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The City reports restricted net position of \$8,045,547 which consists of restricted SPLOST and HOST funds to be used on capital projects, hotel/motel tax, restricted seized funds to be used for public safety, restricted emergency 911 fees to be used for operation of the E911 center and restricted capital projects funds. The remaining portion of the City's net position represents net position of

CITY OF DUNWOODY – GOVERNMENTAL ACTIVITIES

COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE YEAR ENDED DECEMBER 31, 2018

Governmental activities. The increase in net position is due to the City maintaining its efficient model of government to control expenses. The decrease in revenues is due to decrease in business permits due to an anticipated reduction of construction projects; however, this increase in revenues was offset by a decrease in expenses related to business permits. Franchise taxes were \$3,966,742, business occupation taxes were \$3,045,041, and insurance premium taxes were \$3,317,260. The decrease in revenues was also due to an anticipated decrease in capital grants and contributions for road improvements projects, and anticipated significant decrease in capital assets sold.

Our most apparent and sizable expenses during the year were \$10,012,037 and \$8,561,008 for the operation of the Dunwoody Police Department and the Public Works Department, respectively. Overall, expenses increased by \$1,103,638 from 2017. This is largely attributable to the increase in public safety and culture and recreation due to timing of an operating transfer for capital projects and increasing maintenance efforts.

Business-type activities. The increase in net position of \$70,495 is a result of decreases in maintenance costs.

Stormwater assessment fees (computed based on a property's impervious surface area) were \$2,068,165; representing virtually all of the revenues in the fund. Repairs to the system accounted for 79% of the operating expenses while depreciation on the assets accounted for 5% of the operating expenses.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balance of \$40,257,769 and increase in fund balance of \$2,267,070. Of this balance, \$23,387,759 is restricted or assigned for capital projects, \$2,111,316 is nonspendable for prepaids, \$2,069,412 is restricted or assigned for special purposes and \$12,689,282 is considered unassigned and can be used to meet the near term operating needs of the City.

General Fund. The general fund is the chief operating fund of the City. At the end of the current fiscal year the total fund balance was \$15,082,649 representing an unassigned fund balance of \$12,689,282, restricted or assigned funds of \$282,051 for special purposes, and \$2,111,316 in nonspendable for prepaids. Fund balance increased by \$1,298,225 from 2017 primarily as a result of an increase in transfers for capital projects. As a measure of the liquidity, it may be useful to compare both unassigned fund balance represents 59% of total general fund expenditures, while total fund balance represents 70% of total general fund expenditures.

Capital Projects Fund. The capital projects fund was set up to account for capital projects managed by the City. During the current year, a total of \$6,527,394 and \$2,450,000 was transferred into the capital projects fund from the general fund and HOST fund, respectively. After expenditures of \$8,842,001 and other miscellaneous items, the capital projects fund had a decrease in fund balance of \$1,318,910.

Grants Fund. The grants fund was set up to account for federally and state funded projects managed by the City. During the current year, the City received a total of \$3,816,479 in intergovernmental revenues. After expenditures of \$3,733,332, the grants fund is reporting an increase in fund balance of \$83,147. The fund balance increase is created by the receipt of previously unavailable grant revenues of \$83,147.

SPLOST Fund. The SPLOST fund was set up to account for receipts of a sales tax levied in DeKalb County and related expenditures for road improvements and public safety projects in accordance with the voter approved sales tax referendum. During the current year, a total of \$5,110,324 was recognized as revenues. After capital outlay expenditures of \$3,152,824, the SPLOST fund is reporting an increase in fund balance of \$1,957,500 which is due to some of the budgeted projects being finalized in 2019.

HOST Fund. The HOST fund was set up to account for receipts of Homestead Option Sales Tax revenues. During the current year, a total of \$1,458,909 was recognized as revenues. The fund transferred \$2,450,000 to the capital projects fund, and ended the year with a decrease to fund balance of \$991,091.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City's budget utilized a conservative approach based on the limited information available. Emphasis was given to ensuring financial stability and long-term stability while providing revenue enhancement, financial priorities and discipline.

The City employs an annual mid-year budget process in order to re-align appropriations made during the annual budget process with significant unexpected trends. This ensures adjustments facilitating appropriations to be in alignment with expected resources. Differences between the original budget and final amended budget are then resolved via official City Council action.

For fiscal 2018, the City's general fund had a favorable budget variance of \$895,186. There was a \$2,664,604 favorable budget variance for revenues as well as a \$1,584,754 favorable budget variance for expenditures. The City's actual

activity was more favorable than budgeted for most line items due to a conservative budget approach. The favorable revenue variance is attributable to an increase in property taxes and business taxes.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. The City's investment in capital assets for its governmental activities as of December 31, 2018, amounts to \$107,839,138 (net of accumulated depreciation). These assets primarily reflect infrastructure assets such as roadways, sidewalks, and signals; land; parks and culture facilities; and the capital investment for police vehicles and other capital related equipment. The City's investment in net capital assets for its business-type activities as of December 31, 2018 amounts to \$1,080,739. These assets reflect culverts and other stormwater management assets. The decrease in business-type capital assets results from the normal depreciation of the stormwater management system.

Additional information on the City's capital assets can be found in note 6 on pages 57 and 58 of this report.

Long-term debt. At the end of fiscal year 2018, the City had total debt outstanding of \$9,596,020. The debt outstanding at December 31, 2018 represents debt issued in 2016 for the purchase of the new property for City Hall. All debt is backed by the full faith and credit of the City. Additional information on the City's long-term debt can be found in note 7 on pages 58 and 59 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

All of these factors were considered in preparing the City's budget for the 2018 fiscal year.

Sustainability of existing services – the City has maintained its philosophy of budgetary evaluation which reviews the needs of the City to the standard which realizes that services and associated costs should not be appropriated if they are not justified as long-term goals of the City. This philosophy is solidified during the budget process, with a multi-year financial outlook that provides the conduit to evaluate government priorities, realign and diversify revenue structures, and provide the data for decision making for continued financial success.

Cost of government – The operating millage rate cap of 3.04 mills is statutorily set and cannot be changed without a referendum. As part of the financial strategic plan, the government is committed to a consistent millage rate for property taxes, to facilitate the provision of city services.

Infrastructure improvements – The City provided substantial capital funding to continue the implementation of the 5-year capital paving plan to address a significant backlog of existing infrastructure deficiencies. Funding was also allocated for intersection improvements, parks, buildings, equipment, roadways, sidewalks, culverts, and signals. Additionally, the City continues to invest heavily in maintaining an aging stormwater system.

Economy impact – The local economy is strong for next year's budget. The City's property tax valuations are improving and building permit revenue is increasing as the economy recovers. Despite signs of a solid resurgence, the City maintained its conservative budget approach reinforcing its effective and efficient structure established during recession years.

The City restricts the use of one-time revenues to capital and other one-time projects.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Dunwoody's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Department of Finance, City of Dunwoody, 4800 Ashford Dunwoody Road, Dunwoody, GA 30338.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED DECEMBER 31, 2018

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances – total governmental funds	\$ 2,267,070
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.	8,016,165
In the statement of activities, only the gain on the sale of land for resale is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net effect of the cost of land purchased and proceeds from land sold.	(122,557)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(75,169)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt.	303,980
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	 (16,588)
Change in net position – governmental activities	\$ 10,372,901

CITY OF DUNWOODY, GEORGIA

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Dunwoody, Georgia (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City, which was incorporated in 2008, operates under a charter adopted December 1, 2008, as a municipal corporation governed by an elected mayor and a six-member council. The government provides such services as police protection, cultural and recreational activities, community development and public works.

The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely Presented Component Units

The Dunwoody Convention and Visitors Bureau (Bureau) has been included as a discretely presented component unit in the accompanying financial statements. The Bureau is fiscally dependent on the City as it does not have the power to levy taxes, determine its own aggregate budget without the approval of the City of Dunwoody, Georgia, or issue bonded debt and the City is required by contract to provide a majority of the operational revenues for the Bureau. Financial information with regard to the Bureau can be obtained from the Bureau's administrative offices at 41 Perimeter Center East, Dunwoody, GA 30346. Separate financial statements for the Bureau are not prepared.

Blended Component Unit

The Urban Redevelopment Agency (the URA) has been included as a blended component unit in the accompanying financial statements. The City appoints its six member board. Although it is legally separate from the City, its sole purpose is to finance construction and acquisitions of the City. The debt and assets of the URA have been reported as a form of the City's debt and assets and all debt service activity is reported as debt service activity of the City. Separate financial statements for the URA are not prepared. The City reports the URA as a nonmajor debt service fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. The primary government is reported separately from its discretely presented component unit. The statement of net position includes non-current assets and non-current liabilities. In addition, the government-wide statement of activities reflects depreciation expense on the City's capital assets. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise fund are charges to customers for services provided. Operating expenses for the enterprise fund include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments" major individual governmental funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Grants Fund** is used to account for the funds received from external sources as they relate to grants awarded to the City. Matching funds, which are the responsibility of the City, are also recorded within this fund.

The **HOST Fund** is used to account for the Homestead Option Sales Tax and related expenditures made by the City.

The **SPLOST Fund** is used to account for proceeds of a sales tax levied in DeKalb County and related expenditures for road improvements and public safety projects in accordance with the voter approved sales tax referendum.

The **Capital Projects Fund** is used to account for the capital expenditures made by the City.

The City reports the following proprietary fund:

The **Stormwater Fund** is used to account for the charges and expenses of maintaining the City's stormwater infrastructure.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Additionally, the City reports the following fund types:

The **Special Revenue Funds** are used to account for specific revenues, such as E911 revenues, hotel/motel tax revenues, and motor vehicle excise tax revenues, which are legally restricted to expenditures for particular purposes.

The **Debt Service Fund** is used to account for the resources accumulated and payments made for principal and interest on long-term debt of the City.

The **Agency Fund** is used to account for the collection and disbursement of monies by the City's Municipal Court on behalf of other individuals or entities.

D. Budgets

Formal budgetary accounting is employed as a management control device for the general fund, special revenue funds, and capital projects funds of the City. The governmental funds' budgets are adopted on a basis consistent with GAAP. Annual operating budgets are adopted for the General Fund, each Special Revenue Fund, and the Debt Service Funds each fiscal year through passage of an annual budget ordinance and amended as required. The City adopts project length budgets for the Capital Projects Fund. During the fiscal year ended December 31, 2018, the original budget was amended through supplemental appropriations. These changes are reflected in the budgetary comparison schedules.

All unencumbered budget appropriations lapse at the end of each year.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Investments of the City are reported at fair value.

F. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

G. Interfund Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds."

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2018, are recorded as prepaid items in both governmentwide and fund financial statements. These items are accounted for using the consumption method.

I. Capital Assets

Capital assets, which include improvements, machinery and equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The City has reported all infrastructure that it currently owns and has a responsibility for maintaining. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives is not capitalized.

Capital assets of the City are depreciated using the straight-line method over the following useful lives:

Buildings	••••	30 years
Improvements	••••	15-40 years
Machinery & Equipment	••••	3-20 years
Infrastructure	••••	7-60 years
Intangible assets		2-4 years

J. Restricted Assets

Unspent tax revenues from the HOST, police seizures, bonding escrows, and unspent proceeds from the City's notes payable are classified as restricted assets on the fund balance sheet and the HOST funds, SPLOST funds, police seizures, and bonding escrows are shown as restricted net position on the statement of net position because their use is restricted by Georgia law or applicable debt agreements.

K. Deferred Outflows / Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds report unavailable revenues from property taxes and intergovernmental revenues and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

In the fund financial statements, governmental fund types recognize the face amount of the debt issued as other financing sources and the repayment of debt as debt service expenditures.

N. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets and deferred outflows of resources and liabilities and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed through a resolution of the City Council. Only the City Council may modify or rescind the commitment.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Equity (Continued)

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. The Fund Balance Policy, as adopted by the City Council, delegates the authority to the City's management, the City Manager, to assign fund balance for particular purposes.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund.

The City's policy is to obtain and then maintain a minimum general fund balance reserve equal to 33% of current expenditures.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

Net Position – Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in reporting which utilizes the economic measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. The remaining portion of net position is reported as unrestricted.

The City applies restricted resources first to fund outlays for which both restricted and unrestricted net position is available.

O. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$9,969,190 difference are as follows:

Long term debt	\$ (9,596,020)
Accrued interest payable	(48,027)
Compensated absences (i.e., vacation)	(325,143)
Net adjustment to reduce fund balance – total government	
funds to arrive at net position – government activities	\$ (9,969,190)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense."

The details of this \$8,016,165 difference are as follows:

Capital outlay	\$ 11,467,167
Depreciation expense	(3,451,002)
Net adjustment to increase net change in fund balances - total	
governmental funds to arrive at change in net position	
– governmental activities	\$ 8,016,165

Another element of that reconciliation explains that "The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position." The details of this \$303,980 difference are as follows:

Principal retirement of long-term debt	\$ 303,980
Net adjustment to decrease net change in fund balances – total	
governmental funds to arrive at change in net position –	
– governmental activities	\$ (303,980)

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of the reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$16,588 difference are as follows:

Compensated absences		\$ 18,109
Accrued interest		 (1,521)
Net adjustment to decrease net change in fund balances – total		
governmental funds to arrive at change in net position		
– governmental activities		\$ 16,588

NOTE 3. LEGAL COMPLIANCE – BUDGETS

The budget is officially adopted by the governing body prior to the beginning of its fiscal year, or a resolution authorizing the continuation of necessary and essential expenditures to operate the City will be adopted. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

Transfers of appropriations within a department budget or within a non-departmental expenditure category require only the approval of the Finance Director. Increases in appropriations in a departmental budget or in a non-departmental expenditure category, require approval of the governing body in the form of amendments to the budget ordinance.

NOTE 4. DEPOSITS AND INVESTMENTS

Credit Risk: The City does not have a formal policy that addresses credit risk of investments, aside from adherence to state statutes. State statutes authorize the City to invest in the following: (1) obligations of the State of Georgia or any other state; (2) obligations of the United States; (3) obligations fully insured or guaranteed by the United States government or one of its agencies; (4) obligations of any corporation of the United States government; (5) prime bankers' acceptances; (6) the State of Georgia local government investment pool; (7) repurchase agreements; and (8) obligations of any other political subdivisions of the State of Georgia.

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of December 31, 2018, all of the City's bank balances were insured and collateralized as defined by state statutes and GASB.

NOTE 5. RECEIVABLES

Property taxes are levied on property values assessed as of January 1. The City contracts with DeKalb County to bill and collect City of Dunwoody property taxes. The taxes are levied by August 1 based on the assessed value of property as listed on the previous January 1 and are due on November 15 of each year, with a lien date of January 1 of the following year. Property taxes are recorded as receivables and unavailable revenues when assessed. Revenues are recognized when available.

Receivables at December 31, 2018, for the City's individual major funds and aggregate nonmajor funds, including any applicable allowances for uncollectible accounts are as follows:

	General	Grants	5	SPLOST		Capital Projects	onmajor vernmental	Ste	ormwater
Receivables:									
Accounts	\$ 18,266	\$ -	\$		-	\$ 288,545	\$ 463,315	\$	134,304

NOTE 7. LONG-TERM DEBT

Note Payable

On August 31, 2016, the City entered into an agreement through a financial institution to borrow \$9,900,000 from the Georgia Municipal Association for a city hall project. Annual principal payments ranging from \$303,980 to 1,788,727 and semi-annual interest payments, at a rate of 1.98% began in April 2017 and will continue through April 2031. The debt service requirements to maturity are as follows:

	Principal	Interest	Total
Fiscal year ending December 31,			
2019	\$ 343,799	\$ 189,180	\$ 532,979
2020	386,691	182,355	569,046
2021	432,872	173,618	606,490
2022	482,571	164,429	647,000
2023	536,035	154,203	690,238
2024-2028	3,633,290	576,255	4,209,545
2029-2031	3,780,762	148,547	3,929,309
	\$ 9,596,020	\$ 1,588,587	\$ 11,184,607

NOTE 7. LONG-TERM DEBT (Continued)

Changes in Long-Term Liabilities

The following is a summary of long-term debt activity of the City for the period ended December 31, 2018:

		в	eginning				Ending	D	ue Within
			Balance	Additions	R	eductions	Balance	(One Year
Governmental activities:	_								
Notes payable	9	\$	9,900,000	\$ -	\$	(303,980)	\$ 9,596,020	\$	343,799
Compensated absences	_		307,034	 396,217		(378,108)	 325,143		279,001
Governmental activity									
Long-term liabilities		Ş	10,207,034	\$ 396,217	\$	(682,088)	\$ 9,921,163	\$	622,800

For governmental activities, compensated absences are generally liquidated by the general fund.

NOTE 8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of December 31, 2018 is as follows:

Receivable Entity	Payable Entity	Amount
General Fund	Nonmajor governmental funds	\$ 198,927
Nonmajor governmental funds	General Fund	2,632
		\$ 201 559

All interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Due to/from primary government and component unit:

Receivable Entity	Payable Entity	Amount
Component Unit	Hotel/Motel Tax Fund	\$ 90,438
Interfund transfers:		
Transfers In	Transfers Out	Amount
General Fund	Nonmajor governmental fund	\$ 3,402,820
Capital Projects Fund	General Fund	6,527,394
Capital Projects Fund	Host Funds	2,450,000
Nonmajor governmental fund	General Fund	580,359
Nonmajor governmental fund	Capital Projects Fund	1,826,064
		\$ 14,786,637

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 9. TAX ABATEMENT

Abatemer Year Year 1 Year 2 Year 3 Year 4 Year 5 Year 6 Year 7 Year 8 Year 9 Year 10 Year 11

The City of Dunwoody created the Dunwoody Development Authority by passing Ordinance 2009-01-11 on January 26, 2009. The Development Authority of Dunwoody is authorized (under statute Pursuant to O.C.G.A. 36-62-1.) to enter into property tax abatement agreements for the purpose of attracting or retaining business that create jobs and new capital investment.

The Dunwoody Development Authority negotiates bond-financed sale-leaseback structures on a case by case basis. Abatements are determined using the long-standing DeKalb County Abatement Schedules:

Schedule 1 (65% Incentive Year 1) \$3,000,000 - \$74,999,999 capital requirement

\$75,000,000 - \$149,999,999 capital investment required

Schedule 2 (85% Incentive Year 1)

nt	Percent of Ad Valorem
	Taxes Due

Year 9	81
Year 10	90.5
Year 11	100

NOTE 9. TAX ABATEMENT (Continued)

The Authority currently has three active "abatement" agreements as of December 31, 2018:

66 PCE LLC 18-347-01-015 (building) 18-347-01-029 (land)

Project Description: Attract new investment and jobs through the renovation of vacant office building Real Property Abatement not to exceed \$34,000,000 Term: 10 years

June 15, 2012 (Year One of Abatement – 2013) Year Six Abatement: 40% 2018 Appraised Value: \$33,828,588 2018 Abated Value: \$8,118,861 Percentage of tax savings 2018: 40% Total amount of tax savings 2018: \$236,551 Amount of City savings 2018: \$14,830

64 PCE LLC

18-347-01-030 (building) 18-347-01-065 (land)

Project Description: Attract new investment and jobs through the renovation of vacant office building Real Property Abatement Not to Exceed \$81,000,000 Term: 10 Years June 15, 2012 (Year One of Abatement - 2013) Year Six Abatement: 40% 2018 Appraised Value: \$73,835,287 2018 Abated Value: \$17,720,469 Percentage of tax savings 2018: 40% Total amount of tax savings 2018: \$516,304 Amount of City savings 2018: \$32,369

Hotel Development Partners, LLC

275 Perimeter Center North 18-350-01-171

Project Description: Attract new investment and jobs with a new mixed-use development on surface parking lot with hotel and 20,000 sf of retail. Real Property Abatement Not to Exceed \$32,000,000 Term: 10 Years

December 30, 2014 (Project Year One, 2015 - Year One of Abatement, 2017) Year Two Abatement: 58.5% 2018 Appraised Value: \$26,185,093 2018 Abated Value: \$4,346,725 Percentage of tax savings 2018: 58.5% Total amount of tax savings 2018: \$267,788 Amount of City Savings 2017: \$16,789

NOTE 10. COMMITMENTS AND CONTINGENT LIABILITIES

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City has entered into several public/private contractual partnerships for outsourced services and operations. Through these contracts with private companies, an array of operational services are provided via outsourcing. These contracts are operating contracts for which the City is continually monitoring its outsourcing needs as compared to providing services in-house. Currently, these contracts range from approximately \$4,164,000 to \$4,270,000 annually. The contracts were bid for five annual service periods and run through the year ending December 31, 2020.

At December 31, 2018, construction commitments on uncompleted contracts totaled approximately \$2.5 million.

The City employed encumbrance accounting during the period; however, there were no encumbrances outstanding at December 31, 2018.

NOTE 11. DEFINED CONTRIBUTION PENSION PLAN

The City of Dunwoody provides two retirement plans for City employees. The 401(a) plan is a defined contribution plan established and administered by Dunwoody for all full-time employees. City Council has the authority to establish and amend the plan provisions as well as the contribution for the plan. The City contributes 10% of each employee's eligible compensation each pay period. Employees are eligible to participate on the first day of the month following 30 days of employment, and they are vested in the contributions after one year of service. At December 31, 2018, there were 87 employees participating in the plan with total contributions of \$845,521 for the year ended December 31, 2018.

The City also contributes the Social Security withholding amount (6.2% for 2018) to a social security replacement plan for each eligible employee. All participants are fully vested in their social security replacement plan at all times. At December 31, 2018, there were 90 employees participating in the plan with total contributions of \$400,044 for the year ended December 31, 2018.

City employees may also participate in an Internal Revenue Code Section 457 deferred compensation plan. If an employee contributes at least 8%, the City will also offer a 4% (all or nothing) 401a plan match to all full-time employees. At December 31, 2018, there were 80 employees participating in the plan with total contributions of \$551,756.

NOTE 12. JOINT VENTURE

Under Georgia law, the City, in conjunction with other cities around the Metropolitan Atlanta Georgia area, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto, which DeKalb County has paid on behalf of the City of Dunwoody. Membership in ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the structure of ARC. ARC Board membership

NOTE 12. JOINT VENTURE (Continued)

includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street NE, Atlanta, Georgia 30303.

NOTE 13. HOTEL/MOTEL LODGING TAX

The City has levied a 8% lodging tax. The Official Code of Georgia Annotated 48-13-51 requires that all lodging taxes levied of 3% or more be expended or obligated contractually for the promotion of tourism, conventions, or trade shows. During the period ended December 31, 2018, the City received \$3,860,604 in hotel/motel taxes. Of this amount, \$1,706,308, or 44%, was used for the promotion of tourism, conventions, or trade shows.s.

NOTE 14. MOTOR VEHICLE EXCISE TAX

The City has levied an excise tax on the rental of motor vehicles. The Official Code of Georgia Annotated 48-13-93 requires that all motor vehicle excise taxes be expended or obligated contractually, in accordance with the City's ordinance, for the acquisition, construction, renovating, improving, maintenance and equipping of pedestrian walkways, installation of traffic lights, and street lights associated with public safety facilities or public improvements for sports and recreational facilities. During the period ended December 31, 2018, the City received \$115,809 in motor vehicle excise taxes. Of this amount, \$115,809, or 100%, was used for these purposes.

NOTE 15. RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund (Fund), a public entity risk pool currently operating as common risk management and insurance programs for member local governments.

As part of this risk pool, the City is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the Fund, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the Fund being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the Fund.

The Fund is to defend and protect the members of the Fund against liability or loss as prescribed in the member government contract. The Fund is to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

NOTE 15. RISK MANAGEMENT (Continued)

Settled claims have not exceeded the coverages in the last three years.

The City carries commercial insurance for other risks of losses. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage in the last three years.

NOTE 16. LAND SWAP

On November 15, 2016, the City entered into an Intergovernmental Agreement with the DeKalb County School District (DCSD). The DCSD purchased approximately 10 acres of the Dunwoody Park property for construction of a new school complex. The City purchased approximately 18 acres of property formerly occupied by the Austin Elementary School and Peachtree Middle School. Additional consideration was given for both operational agreements and capital improvements to the properties involved in the transaction. The DCSD will pay the City to make certain capital improvements to three ball field sites, which includes the building of two new baseball fields. After closing, the DCSD will lease Austin Elementary School construction will start after the two new baseball fields are ready for use. The City and DCSD will cooperatively share the fields for 25 years.

	Prepaid Rents	Unearned Income
City use of track and football field	\$ 1,664,2 <mark>00</mark>	\$-
City maintenance of track and football field	-	335,432
DCSD use of bas <mark>eb</mark> all fields (2)	-	1,035,000
DCSD rental of elementary school	_	504,400
Total	\$ 1,664,200	\$ 1,874,832

NOTE 16. LAND SWAP (Continued)

The City expects to recognize rental income for DCSD's rental of elementary school of \$504,400 for the year ended December 31, 2019.

Amounts reported as prepaid related to the City's use of the track and football field will be amortized over the 25 year term and recognized in rental expense as follows:

Year ended December 31,	
2019	\$ 72,360
2020	72,360
2021	72,360
2022	72,360
2023	72,360
2024-2028	361,800

COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE YEAR ENDED DECEMBER 31, 2018

STATISTICAL SECTION

STATISTICAL SECTION

This part of the City of Dunwoody's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

	Page	е
Financial Trends		,
	These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacit	y93	3
	These schedules contain information to help the reader assess the City's most significant local revenue source, property tax.	
Debt Capacity		>
	These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic an	d Economic Information	
	These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Inform	nation	3
	These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report	
	relates to the services the City provides and the activities it performs.	
Sources: Unless oth	nerwise noted, the information in these schedules is derived from the comprehensive annual financial report. The City's first period of operation i	s
the fiscal period en	ded 2009; therefore, data prior to 2009 is not available.

(1) In 2010 the City took ownership of the parks within the City limits from DeKalb County.

(2) 2010 was the first full year of operations for the Court.

(3) 2010 was the first year the City was eligible to receive insurance premium tax revenue.

(4) In 2011 the City's inventory of the stormwater system was complete and the City began significant repairs to the system.

(5) 2012 was the City's first full year of collecting E911 revenues.

(6) In 2012 the City approved a rate increase from \$49 per ERU to \$69 per ERU for the stormwater fee.

Total overlapping debt	\$	166,869,000		\$ 184,778
Total direct and overlapping debt	\$	176,465,020		\$ 9,780,798

Source: Assessed value data used to estimate applicable percentages and debt outstanding obtained from DeKalb County's Finance Department.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.
